

# LightShine Alaska

**PHASE 6 - 2022**  
**We Need Your Help**  
**Purchasing Building**  
**Materials & Stone**

“And let the beauty of the Lord our  
God be upon us, And establish the  
work of our hands for us;  
Yes, establish the work of our hands.

*Psalm 90:17*

## THE GOALS FOR 2022

In November of 2017 we were able to purchase 4.62 acres in Palmer, Alaska for our missionary base of operations. Since then, we have been clearing land, building several important buildings and making the property suitable for year round use. We still have a lot to do. But we are thankful for what has been accomplished so far.

**2022 is going to be a year of  
finishing what has been started.**

You can see in the photo above that we did a lot of excavating in 2021. In the coming year, we need to focus on planting grass and

bringing in a lot of gravel. In this aerial photo, you can see how we desire to finish the new bunkhouse by surrounding it with a stone driveway and planting grass to control mud throughout the year. God will be glorified!

**All of the skilled labor is provided by people who raise their own missionary support and work “as unto the Lord”. We simply need help purchasing stone, topsoil and bulding materials as well as renting heavy equipment and all tools to do the job.**

## OUR HISTORY:

LightShine Alaska has been serving in Alaska Native villages, building churches, and various other ministries in Alaska since 1995. **2022 is our 27th year bringing missions teams to Alaska.** The upstairs of the new bunkhouse will house our teams during their first night in Alaska. From there, their team will leave to travel to their assignment somewhere in the state.

You can read more about our ministry on our website:

[www.lightshineministries.org](http://www.lightshineministries.org)

## PROPOSAL FOR 2022 LANDSCAPING TEAM

Other projects for 2022 include installing 3ft. stone veneer around the base of the Bunkhouse and Waterhouse, several interior carpentry jobs like making shelves in the garage, and trim throughout.

**But a major job that needs to be tackled is giving our house a total makeover.** Currently, this is what our house looks like.

Our goal is to begin work on this house this summer in this order:

- 1. Reframing and replacing all windows that are heat efficient.**
- 2. Working on the interior doing several needed projects to upgrade the living conditions.**
- 3. Installing 2" blue foam on the exterior of the house and siding it to match the new bunkhouse.**

We are convinced that we need to get a **LightShine Alaska** caretaker living at the base year round. In order to do that, this house must become a usable home that can be heated efficiently. **We need your help to help to accomplish that.**

### **Wood & Stone Team \$9,725**

Includes stone veneer, lumber and other materials -

### **Landscape Team - \$18,000**

Includes all stone, topsoil and heavy equipment rental.

### **Caretaker House Teams**

These teams will work to complete these projects as money is available.

### **Replacement Windows and Framing - \$25,000**

**Interior Work** (includes replacing carpet with laminate flooring, bathroom remodel, and other misc. jobs). **\$24,000**

### **Exterior Foam Insulation \$15,000**

### **Exterior Half Round Siding \$27,000**

**Tractor/Skid Loader** (for snow removal and year round) **\$40,000**

### **Total for 2022 - \$158,725**

This is a breakdown of the financial needs for purchasing building materials for the work that needs to be completed in 2022.

All of this work will be done by volunteer teams that are already planning their weeks of work. We simply need to make sure the building materials are ready for them.

Thank you for giving towards this need for building materials and equipment. **Again, we have skilled men and women who are ready to do the work.**

**We desire to be good stewards of what He has provided to do this work.** May His Name be praised forever!
